

EDWARD JONES INVESTMENTS

Location: Exmore, VA

Use: Investment Center

Size: 4,000 Square Feet

Background:

Edward Jones required a first class looking building fast. It was important that the Edward Jones Investment building matched the colonial architectural design of the Eastern Shore. The interior layout and overall size of the building allows the owner to accommodate growth or tenant space. The project from design to final occupancy was done on a fast track schedule of 90 days.

Features:

Site built hip roof and site installed brick exterior is complimented by colonial style columns. Low E glass windows and doors along with upgraded insulation makes the building easier to heat and cool. The appearance was developed to match the historic look of the surrounding area and to create a high end professional image.
