

WASHINGTON REDSKINS

Location: Ashburn, VA

Use: Public Relations and Marketing

Size: 4,320 Square Feet

Features: Architecturally designed hardipanel exterior. A site-built 2 foot overhang with recessed soffit lighting. Green tinted insulated windows and doors to match existing facilities. Executive office suites and a conference center with ceramic tile and carpet tile used throughout. Upgraded T-grid ceiling system with high energy saving light ballasts. One of the final touches was to incorporate 2 bump outs with flags into the columns to match the existing structure.

Background: The Washington Redskins required a design that would match their existing training facilities. A high end professional image was very important along with being a fast track project that needed to meet an expedited schedule. The pleasing architectural finish helped satisfy the customers needs. The project was completed under budget and finished in only 51 days from the date of contract to completion.
