

PROJECT PROFILE |

Educational Facility – Ad Fontes Academy

USE: Classrooms, Restrooms, Offices,
Conference & Reception Areas

SIZE: Approximately 9,900 square feet

NEED

Ad Fontes Academy was nearing full student capacity at their two church locations. The school's challenging program has been so attractive to the community that they were in need of a new facility.

SOLUTION

AFA aims to unite into one K-12 campus at Centreville Presbyterian Church (CPC) through the addition of a Modular building. The modular addition helped Ad Fontes increase their overall student capacity from 210 to 275 students. The new modular building is located directly behind the CPC building and houses the Lower School (Grades K-6). Features include:

- (8) Classrooms, 55- sq. ft. each
- Boys' & Girls' Restrooms
- One large multi-purpose room
- Offices & Reception area
- Conference Room
- Small Library
