

Project Profile | Training Center - Mt. Washington Pediatric Hospital

Use: Training Center
Location: Baltimore, MD
Size: Approximately 24' x 60'

Need:

The customer needed temporary space for training employees on a new software program they were implementing at the hospital. They wanted to lease space on-site for convenience and cost savings.

Solution:

We provided the customer with a training facility that included bathrooms, a kitchen, holding tanks for water & waste (provided service for this as well), aluminum steps, decks & ramps and all utility connections and building permits. By providing building space on-site, employees didn't have to travel off site to another location, saving both time and money.

Features:

- **Duratemper exterior**
- **EPDM Roof Monoslope**
- **Gutters & Down Spouts**
- **Light Weight Steel Doors**
- **Tile Floors**
- **Central HVAC**
- **Seaspray Gypsum Ceiling**
- **Vertical Blinds**
- **Diffused Light Fixtures**
