

PROJECT PROFILE |

Custom Modular Scale House - Prospect Metal Company

USE: Scale House
LOCATION: York, PA
SIZE: 12' x 56'

Need

Wilmot offers an affordable solution for scale houses that monitor and manage cargo weight, traffic & transactions at highway weigh stations, landfills, & recycling centers.

These buildings can be customized to include electrical systems, factory plumbed restrooms & HV AC systems. Exterior features can include custom roof structures, special glazing including ballistics rated walls, roofs & windows, custom paint finishes, and exterior wall treatments such as factory applied brick or stone.

Solution

- Helps to eliminate the down time required to build a conventional scale house
- Fully assembled and ready for occupancy
- Great for highway weigh stations, landfills & recycling centers
- Durable construction, flexible designs, custom finishes, versatile, & affordable
