

PROJECT PROFILE |

Temporary Office Space - Hampton Roads Bridge Tunnel Expansion Project

USE: Temporary Office Space

LOCATION: Norfolk, VA

SIZE: Multiple Buildings - 42,240 Total Sq. Ft.

Need

The customer needed temporary office space to be used during the I-64 Hampton Roads Bridge Tunnel Expansion - VDOT project. This \$3.8 billion dollar project is one of the largest infrastructure projects in Commonwealth history, which will increase tunnel and interstate capacity in between Hampton and Norfolk, VA.

Solution

The temporary office space that Wilmot Modular Structures provided will allow the customer to house numerous personnel throughout the two-year bridge and tunnel expansion project. The expansion will allow for commuters to experience an easier and more reliable commute by decreasing congestion and easing access to the Port of Virginia.

Features

- **Total of 42,240 Sq. Ft. of Office Space**
 - (1) 13,440 Sq. Ft. Two-story complex at South Island
 - (1) 10,080 Sq. Ft. at North Island
 - (1) 18,720 Sq. Ft. at Willoughby
- **Design Efficiencies Include:**
 - No requirement for Fire Suppression Sprinkler systems
 - Hi-Rib Steel Exterior Cladding
 - EPDM Rubber Roof
 - VCT Flooring
 - VCG Wallboard
