## MODULAR STRUCTURES, Inc.

*We Help Build Visions*

## Rapid Response Space Solutions

*Find space fast at a time of disaster*

Natural disasters, pandemics, and unprecedented global events bring great challenges to Facility Planners. You not only have to secure your premises and personnel, but also maintain business continuity. Modular Buildings are a great solution for businesses that need cost-effective, quality facilities — fast! Our Rapid Response Program saves you the worry of finding extra space at a time of need.

### A part of your Emergency Preparedness Plan

*Our team is on your team!*

- 24 hour response to an Emergency Space Requirement when you sign up for our Emergency Plan Program
- Fully-wired and ready for occupancy
- Climate-controlled for guaranteed year round comfort
- Emergency ground-level storage containers to secure your critical property

## Emergency Space Needs

An emergency preparedness plan is important for all Facility Managers. But time doesn't always allow for a proper preventive analysis of your essential square footage, equipment, and personnel needed to keep your company running while your operations are impacted.

Wilmot is your source for modular structures for all your emergency space needs. Whether that's "Hot Sites" that are fully functioning and scaled for emergencies, or simply the reassurance of knowing that space can be rushed to you in your time of need. **Our Space Planners are well-known for their excellence in customer service and are ready to help meet your needs!**

## We meet our customer's time sensitive deadlines

During the height of the covid-19 pandemic, a local convention center (turned makeshift hospital for covid-19 patients) had an immediate need for portable showers so that their medical staff could decontaminate after shifts. Wilmot Modular designed and built a high quality shower container for rapid delivery within our customer's time sensitive deadline.
