

PROJECT PROFILE | Training Center - Mt. Washington Pediatric Hospital

USE: Training Center
SIZE: Approximately 24' x 60'

NEED

The customer needed temporary space for training employees on a new software program they were implementing at the hospital.

SOLUTION

We provided the customer with a training facility that included bathrooms, a kitchen, holding tanks for water & waste (provided service for this as well), aluminum steps, decks & ramps and all utility connections and building permits.

Features:

- Duratemp exterior
- EPDM Roof Monoslope
- Gutters & Down Spouts
- Light Weight Steel Doors
- Tile Floors
- Central HVAC
- Seaspray Gypsum Ceiling
- Vertical Blinds
- Deffused Light Fixtures
