

PROJECT PROFILE | Storage Facility - U-Stor

USE: Offices & Climate Controlled Storage

LOCATION: Nitro, WV

SIZE: 42' x 60'

Need

This project was built with modular construction in approximately six weeks compared to a six-nine month timeline it would have taken with a traditional construction route.

Solution

- Approximately 6 weeks, compared to 6-9 months with a stick built building
- Building designed to match customer friendly aesthetics
- Integrated office/climate controlled storage system works well for high security & 24/7 customer access
- This design resulted in much less disruption to the site and faster occupancy
- Ground Level Entry
- Stone & Stucco Finish
- Site Built Hip Roof
- Climate Control with Humidistats
- 2' x 6' Construction
- User Friendly Electrical Switch Systems
- Integrated Keyless Entry System
- 24/7 Access
